

Infrared Nanoscopy Workshop on Biological and Polymer Nanomaterials

Wednesday, 24 April 2024

Session 1: Infrared nanoimaging and nanospectroscopy – emerging tools for physical and (bio)chemical nanoanalytics (09:20 - 09:45)

-Conveners: Dr. Adrian Cernescu

Session 1: Spectral indicators of the stress in blood cells (09:50 - 10:05)

-Conveners: Prof. Kamilla Malek

Session 1: Nanospectroscopic investigation into local molecular rearrangements in amyloid- β upon the interaction with the anti-aggregation agent bexarotene (10:10 - 10:25)

-Conveners: Prof. Ewelina Lipiec
