

Infrared Nanoscopy Workshop on Biological and Polymer Nanomaterials

Wednesday, April 24, 2024

Session 1: Infrared nanoimaging and nanospectroscopy – emerging tools for physical and (bio)chemical nanoanalytics (9:20 AM - 9:45 AM)

-Conveners: Dr. Adrian Cernescu

Session 1: Spectral indicators of the stress in blood cells (9:50 AM - 10:05 AM)

-Conveners: Prof. Kamilla Malek

Session 1: Nanospectroscopic investigation into local molecular rearrangements in amyloid- β upon the interaction with the anti-aggregation agent bexarotene (10:10 AM - 10:25 AM)

-Conveners: Prof. Ewelina Lipiec
