

Infrared Nanoscopy Workshop on Biological and Polymer Nanomaterials

Wednesday, April 24, 2024

Session 2: Nanostructured surface-grafted polymer brushes by sSNOM (11:00 AM - 11:15 AM)

-Conveners: Prof. Szczepan Zapotoczny

Session 2: How much can we feel? Single – molecule – layer studies using AFM – IR (11:20 AM - 11:35 AM)

-Conveners: Dr. Natalia Piergies

Session 2: Self-assembled eutectics and their nanoscale optical properties (11:40 AM - 11:55 AM)

-Conveners: Dr. Patrik Micek

Session 2: Advancement of methodology for chemical imaging of erythrocytes at the nanoscale (12:00 PM - 12:15 PM)

-Conveners: Tetiana Stepanenko
