

Joint Meeting of PSRS Members and SOLARIS Centre Users

Thursday, 12 September 2024

Session VI - Microspectroscopy and imaging (I): Development of ptychographic imaging with soft X-rays (15:00 - 15:30)

-Conveners: Tim A. Butcher

Session VI - Microspectroscopy and imaging (I): How PEEM helps in the study of antiferromagnets? (15:30 - 15:50)

-Conveners: Ewa Madej

Session VI - Microspectroscopy and imaging (I): Ultrathin Sn deposited on Pt(111): growth and electronic structure (15:50 - 16:10)

-Conveners: Ewa Młyńczak

Session VI - Microspectroscopy and imaging (I): Observing barium oxide on W(110) by low-energy, thermionic and photoemission electron microscopy (16:10 - 16:30)

-Conveners: Paweł Nita
