

LEAPS meets Advanced Materials for Energy Conference 2025

Monday, 19 May 2025

Nuclear technologies, Fusion materials, metallurgy (11:00 - 12:20)

-Conveners: Myrtille Hunault; Jan-Luc Béchade

time	[id]	title	presenter
11:00		Dr. Jean-Luc Béchade - Synchrotron source to analyse materials for nuclear applications, focus on zirconium-based alloys fuel cladding of Pressurized Water Reactors.	
11:40		Dr Myrtille Hunault - MARS beamline: a unique facility for the characterization of highly radioactive samples from the nuclear fuel cycle
